This compilation on Particularly Vulnerable Tribal Groups (PVTGs) of Nilgiris district, is the outcome of two of my research works viz., a socio-economic survey conducted under the Project “Socio-Economic Survey of Scheduled Tribes in Tamil Nadu” among the PVTGs of Nilgiris district for more than a year during 2010-11 and a developmental update on “Particularly Vulnerable Tribal Groups (PVTGs) of India” carried out during 2012-13, from all the Regional Centres of Anthropological Survey of India, Ministry of Culture, Government of India. Field work and data collection on the PVTGs of Nilgiris have been carried out by me once again during 2012-13. For the first time, a break up of the population and distribution details of the three endogamous subgroups of the Kurumbas, namely, Alu Kurumba, Betta Kurumba and Mullu Kurumba, besides the break-up details of Toda and Toda Christian, along with clan wise distribution of Toda, have been attempted in Nilgiris district through this Survey.
